- + Developed MVC based applications for different international clients.
- + Communicate effectively with Clients to gather requirements.
- + Works on Asp.NET MVC (C#), Angular 13, JavaScript, Vue.js, JQuery, AngularJS, HTML5, CSS3, SQL.

JULY 2018 – FEB 2022

### Software Engineer / IBEX Global – Khi, PK

- + Developed MVC based applications for call center operations and clients.
- + Managed different projects for international clients including planning, development and deployment.
- + Worked on Asp.Net MVC (C#), JavaScript, AJAX, JQuery, AngularJS, HTML5, CSS3, SQL, MYSQL.

DEC 2015 – JUNE 2018

### Analyst Software Engineer / IBEX Global – Khi, PK

- + Handling all aspects of Software Development Life cycle i.e., analyzing the Requirements, Development of Scripts and Reports, Process sanity (QA) at first level and lastly providing support on on-going operations.
- + Deliver all the client related documents on timely and efficient manner.
- + Worked on C++, C#, PHP, JavaScript, AJAX, JQuery, AngularJS, HTML5, CSS3, SQL, MYSQL, SSIS.

---

## Education

MAR 2016

### Bachelors in Engineering (Software) / NED University of Engineering & Technology – Khi, PK

Graduated with Second Position securing 3.967 GPA

SEP 2011

## **Higher Secondary Certificate / Sir Syed Government Girls College – Khi, PK**

Secured A1 Grade with 89.27%

JULY 2009

## **Secondary School Certificate / Central Point Grammar School – Khi, PK**

Secured A1 Grade

---

## **Certifications And Courses**

- + MICROSOFT Certified Professional for programming in HTML5 with JavaScript and CSS3.
- + Certified Course from Coursera in Responsive Website Development and Design, University of London.

---

## **Projects**

### **PAI LMS – THE TECH RESOURCES**

Developed and enhance a complete LMS for a huge multi-national company. The core modules include: Client Based Permissions, Role Based Features, Course Content Management, Reports Generation, Test Modules, SCORM Packages, etc.

*Technologies Used:* C#, .NET MVC, LINQ, Entity Framework, SQL Server 2019, Windows Service.

### **SKINNER BOL – THE TECH RESOURCES**

Worked on a client application that manages shipment and order details and generate Barcodes for the order. The core modules include: Manage Shipments, Manage Orders, Manage Items, Generation of Barcodes.

*Technologies Used:* C#, .NET MVC, LINQ, Entity Framework, SQL Server 2019, Vue.js.

### **PTC – THE TECH RESOURCES**

Worked to enhance features of a client application that deals with Pharmaceutical Drugs and Alcohols. The core modules include: Role Based Authorization, Enrollment Forms, Summary of Orders and PDF Generation.

*Technologies Used:* Angular 13, Web API, Postman.

### **RECORDING PORTAL - IBEX GLOBAL**

Developed a central recording tool that allows user to search, play and send call recordings to the client based on PCI standards. The core modules include: Active Directory Authentication, Role Based Authorization, Sound Processing, Encryption, Request Processing, Sharing with Cloud Based Applications.

*Technologies Used:* Angular JS, C#, .NET MVC, LINQ, Entity Framework, SQL Server 2012, Windows Service.

## **CALL ACTIVITY TRACKER - IBEX GLOBAL**

A system used to help agents with all their call center operations including dispositions, sales tracker, callbacks and report generation.

*Technologies Used:* C#, Asp.Net MVC, Enterprise Library, HTML, MS SQL Server 2014, JQuery, Kendo UI, Pivottable.js.

## **VONAGE SALES APPLICATION - IBEX GLOBAL**

Developed an application for Vonage Client that helps agents to insert, update and delete their sales records and generate reports based on the records.

*Technologies Used:* PHP, XAMPP Server, MySQL, JavaScript, AJAX.

## **AT&T DASHBOARD - IBEX GLOBAL**

Developed an excel macro that helps supervisors to check the number of dial-able leads available, generate reports and graphs, modify the filters to extract more dial-able numbers.

*Technologies Used:* Excel 2013 macros, MS SQL Server 2014

## **SOAP - Academic Project**

Developed Student Online Academic Portal where different schools can create their separate websites and manage all their school activities including course creation, timetable, syllabus and assignments generation. Students can connect with activities of different schools, share events and news. Teachers can give badges to students on their performance. School can also send SMS notifications to students using the Web APP.

*Technologies Used:* C#, ASP.net Webforms, SQL Server 2008, Ozeki API

## **MYFAKEBOOK - Academic Project**

Developed a social media application with basic functionalities of facebook.

*Technologies Used:* Meteor.js, Mongo DB, Spacebar.js

---

## **Achievements**

- + Secured 2nd Position in NED University with 3.97 CGPA.
- + Laptop awarded by Prime Minister Laptop Scheme to Top 5 students.
- + Secured 5th Position in HSC Pre-Engineering Group with 89.3%
- + Certificate of Appreciation awarded by Islami Jamiat Taliba for achieving flying colors in Inter Board.
